I suffered with catarrh for many years and got so deaf that I went about my Museums, Circus and Theatre giving directions and doing business with a big ear-trumpet at the side of my head. It was very annoying to me and amusing to those who saw me. By the advice of physicians I sought the climate of the Sunny South. In six months I could see no change and was discouraged. At this time I began using Chalmer's English Catarrh Cure. In three months I felt a new man, in six months my hearing returned. I refused to give a testimonial at once for the English Catarrh Cure, as I feared it was not permanent. But a year and more has now passed, and I can now heartily indorse Chalmer's English Catarrh Cure for the cure of catarrh and deafness.

OUR FOREIGN RELATIONS.

An eastern exchange says the new administration will be likely to be embarrassed by several disputes with foreign powers. President Cleveland will hardly leave affairs unruffled. Mr. Bayard has not shown himself a skillful diplomatist. On some questions he has perhaps simply been unfortunate, on others he has been unwise At present there is a slight misunderstanding with Great Britain. The summary withdrawal of diplomatic intercourse from Lord Salisbury annoyed Lord Salisbury, and caused him to refrain from sending another embassador to our land. Mr. Phelps, in turn, proposes to turn his back on Great Britain, and leave our affairs in charge of a subordinate. At the present juncture, when there seems a grave misunderstanding between our country and Germany about the Samoan Islands, it seems unfortunate that Great Britain has not a minister resident at Washington with full powers. Great Britain, Germany and the United States, have a treaty guaranteeing the independence of the Navigators' Islands, and the former country should join with us in effective protests against German aggression.

A second question which ruffles the sea of diplomacy is the Haytian matter. Disorder prevails in Hayti, and there seems no responsible government there. The trouble connected with the seizure of the Haytian Republic seems not to be satisfactorially settled. Reports have come of the release of the ship, but they were quickly followed by a story that a Haytian war vessel attempted twice to sink her by running into her. If such was the case it shows that the Haytians are sulky and revengeful, and are disposed to indulge a grudge against our nation. Meantime our fleet threatened with yellow fever, lies near the Haytian waters, prepared to act vigorously on the slightest pretext. But no honor can come from a contest with barbarians on whom Caucasian arrogance looks haughtily down, and Secretary Bayard is hardly likely to see a responsible government in power in the black isle with which he can negotiate a permanent peace. A Republican Secretary of State must inherit this wrangle.

Another controversy is possible with France. Our Senate has virtually given notice to the Gallic Republic that we cannot see without grave dissatisfaction the assumption by any European Power of the work of completing and maintaining an interoceanic canal at the Isthmus of Darien. The French have expended millions of dollars in digging that canal, and it is far from completion. So long as it was treated as a private enterprise under the management of De Lesseps, our government did not feel called on to utter any protest So much money has been expended, however, that the investors do not wish to regard it as wasted, and there is likely to be a mighty pressure exerted on the French Government to induce them to assume the task of finishing the canal and holding it as a national possession. And diplomacy is preparing for a wordy contest, and our government is disposed to enforce protest by acts. Naval ships have been ordered to Panama, and report says that Secretary Whitney has bidden the new steamer Atlanta visit Hati, and go thence, if not needed there, to the vicinity of Aspinwall.

And while such things are taxing Mr. Bayard, the Samoan question assumes a threatening form. Our Secretary of State is represented to disbelieve some of the reports that have lately come from those isles in the Pacific, but some of them are quite startling. German naval officers are represented to be perpetrating outrages on Americans and their property, and preparing to annex the isles. Word therefore comes from Washington that certain Senators deem Mr. Bayard's course too pusillanimous and his protests too feeble. They are demanding a bolder policy on the part of our nation. Before these complications can be settled, however, the present administration will retire from authority. Gen. Harrison and his new premier must grapple with the matters. Common prudence therefore suggests that Republican Senators judge Secretary Bayard fairly. They must make fair allowance for the embarrassments of his position, recollecting that the measure measured to him must soon be meted out to his successor. And be that successor whom he may, he will find all the sagacity needed which Madison, John Quincy Adams, Clay, Livingston or Webster ever showed.

A report from Indianapolis says when President-elect Harrison was informed of the assassination of Hon. John M. Clayton, at Plummerville, Ark., Tuesday night, he said: "It is terrible; there has been nothing since Garfield's assassination more disgraceful. Such outrages will have to stop."

Cleveland's Nominations.

A Republican member of the Senate Committee on Judiciary, who takes a most active part in the consideration of President Cleveland's nominations just at this time, said to a correspondent the other day: "There is no use talking about the political nominations of Mr. Cleveland being confirmed. It is too late for him to expect the Republicans to be a party to the paying off of his political scores. I am a member of another committee which has probably as many nominations as any of the committees, and the same feeling exists there that exists in the Judiciary Committee. We have discovered that in many cases, officers whose commissions would soon expire after the 4th of March, have resigned for the purpose of creating vacancies to be filled by Mr. Cleveland. The new commissions would run three or four years, as the case may be, and these Democrats would be saddled on a Republican Administration for a full term. I have not yet seen the nomination during the present session of Congress of a single thoroughbred Republican. Those nominated by President Cleveland, who are reported to be Republicans, are either outright mugwumps or that mild mannered class of Republicans whose politics could scarcely be discovered by a dark-lantern investigation committee.

A Chance for Estee.

CHICAGO, Jan. 31 —The Tribune's Indianapolis special says it is still believed that Estee, of California, will be placed in charge of the Interior Department.

With the fiery Boulanger having everything his own way in France, it would not be a matter of surprise if America would have a powerful ally within twenty-four hours in case there should be a declaration of war against Germany.

Senator Allison has decided to decline the Treasury portfolio. With neither Jones nor Allison for Secretary of the Treasury this country is liable to go to the demolition bow-wows.

If Bismark will only open his arms to receive the American hog we will say no more about the Samoan affair.

It will be noticed that Mr. Harrison's visitors of late are of that timber from which a Cabinet is made.

A Reminder of Washington Society.

Down in Petersburg, Mahone's home, the General lives in a large, fine house. On the outskirts of the city is a lunatic asylum for colored people, the only one in the country, and also a colored normal school, the only one in the country. Both of these institutions were founded by Mahone when he was in power. There is a peculiar attachment to the lunatic asylum in the shape of a large yard surrounded with a picket fence thirty feet high. In this yard the patients who are not dangerous are allowed to stay several hours each day, indeed most of the time. The lunacy of the negro runs largely in the direction of oratory, exhorting, etc. The lunatics walk about in the inclosure, make political speeches and harangues, preach sermons, exhort, and so on, in stentorian tones, so that you can hear the hubbub half a mile away. It is a queer scene. Some time since John Sherman was a guest at Mahone's home, and the General took him out riding. He showed him the normal school, of which Langston was principal, and then they drove to the lunatic asylum. The carriage stopped by this peculiar prison yard, the inmates being clearly visible through the pickets, and the gentlemen watched the strange spectacle of the moving throng within and listened to the mingled uproar of the many voices. Finally Mahone said: "Sherman, do you know what this reminds me of? It reminds me of one of those society receptions up in Washington."—Washington Post.

Senator Washburn.

Springfield (Mass.) Republican: The number of millionaire Senators, estimated now at from thirty to thirty-two, or nearly one-half of the entire Senate has been increased by the choice of Gen. W. D Washburn to succeed Sabin, from Minnesota. Washburn is a railroad President, is worth $5,000,000, and lives in a million dollar house at Minneapolis He was born at Livermore, Maine, in 1831, and is a graduate of Bowdoin College. He made his money in lumber

---

Washington Star: Whatever doubts we may have had as to the selection of Mr Blaine for Secretary of State have been removed by the fact that Senator Sherman, who is regarded as his rival, and his friends are speaking favorably of the selection, and the men generally antagonistic to Blaine agree that he merits this recognition. This has relieved General Harrison from any embarrassment he may have felt in the matter. There is no longer room to doubt that Mr. Blaine will be offered the State portfolio.

Atlanta Constitution (Dem.): This opposition to Mr. Blaine comes from the mugwump element which, voting for Cleveland against Blaine in 1884 voted for Harrison against Cleveland in 1888. The Constitution is not an admirer of Mr. Blaine's politics, but it understands clearly that Mr. Blaine is the only Republican who has any definite claim for first place in the new administration. He is not only the most popular Republican in the country to-day, but he is the best informed Republican.

CABINET CONJECTURES.

St. Paul Pioneer-Press: Gen. Mahone will hardly succeed in breaking into Gen. Harrison's Cabinet. He is not enough of a heavyweight. He might possibly be spirited in through the keyhole.

Brooklyn Union: The people who think that Harrison ought to settle the question whether or not Blaine is to be of the Cabinet are right, and if they will wait till Harrison is ready they will find he will do it.

St. Louis Globe Democrat: It is easy to believe the report that General Harrison recently expressed his preference for a Western man for Secretary of the Treasury, because such a view is in accordance with his well known habit of looking at things in a sensible and practical way.

St. Louis Globe-Democrat: If the distinguished Iowa statesman should be given the Treasury portfolio by President Harrison the monetary end of the Government would be looked after by one of the most sagacious, broad minded and safe financiers to be obtained in the country.

Augusta (Ga.) Chronicle: The Chronicle commends the policy outlined by Governor Bullock towards the South. It is safe and conservative, and will insure tranquility in both sections. Gov. Bullock has shown himself a wise and capable counselor. General Harrison could not find a better advisor or Cabinet Minister in his party in Georgia.

Senator Jones, of Nevada: If Mr. Harrison wants to gain the ill-will of seven-eights of his party let him ignore Mr. Blaine. That will be the beginning of such a revolt as no party ever witnessed. There is no sensible Republican in existence, whether formerly opposed to Mr. Blaine or his friend always, who does not recognize the magnificent loyalty with which he supported the ticket last Fall It was the kind of loyalty that must be loyally recognized as it was tendered.

PERSONAL.

Senator-elect Washburn is spoken of out West as Washburn III.

Governor Gordon, of Georgia, is going into raising thoroughbred cattle.

Mrs. Harrison says that while she believes in the bustle, she believes in a small one.

Mr. Mackay presented his daughter Princess Colonna, with $50 000 for a New Year's gift.

Jay Gould's loss of his wife seems to be a blow from which he does not rally. Her fortune of $80,000 was the foundation of his.

Senators Blair and Morgan do not speak as they pass by. They are the only two of the seventy-six members of the Senate who are not on speaking terms.

The historian Bancroft is perhaps the oldest college graduate in the country. He took his degree from Harvard 72 years ago. He is now eighty-nine.

The Czar of Russia is an enormous eater. He takes from two to three pounds of solid meat and an average of two quarts of champagne for luncheon, with a big dinner in proportion.

Eri Gray, of Middletown, N. Y., has voted at every Presidential election except three since the foundation of the Government. He was one hundred and three years old on December 16th last.

It is reported from Pomona, Los Angeles county, Cal., that Charles Dudley Warner has given orders for the planting of an orange grove on his twelve acres of land there, and that he has determined to make Pomona his Winter home hereafter.

The JOURNAL regrets to publish the death of the infant daughter of Mr. and Mrs. Charles Dealy. The funeral will take place this afternoon at 2 o'clock.

The case of Davis versus the S. P. R. R. Co., is on trial in the District Court. The action is for $1999 damages for injuries received by the child of Davis. Lindsay and King are for the plaintiff and Baker & Wines for the defendant.

A DETERMINED PASSENGER.

He Would Not Sign a Ticket Nor be Put Off the Train.

A case is now being tried at Lovelocks which involves the right of the railroad company to compel a passenger to sign a ticket or to put him off the train for refusing to do so. It appears that a passenger, who purchased a first-class ticket at Denver, Colorado, for San Diego, California, refused to comply with a regulation of the Southern Pacific Company requiring passengers going west from Ogden and holding through tickets to sign their names to such tickets. Conductors could not persuade him to attach his signature to the pasteboard and threats to put him off the train were unavailing. At Lovelocks he became obstreperous, it is charged, and drew a revolver to prevent the train men from executing their threats to put him off the cars. The assistance of the local officers was involved and he was arrested upon a charge of drawing a deadly weapon. The case is attracting considerable attention and able counsel is employed on both sides. So says the Silver State.

Unsafe Water Supply.

Filth diseases, such as diphtheria and typhoid fever, often become epidemic in country places as a natural result of absence of sanitary precautions against pollution of water for family use. This trite but increasingly important truth is emphasized and illustrated anew by a correspondent of "Farm and Fireside":

It is no doubt safe to say that not one well in a hundred is located at a sufficient distance from filthy surroundings. A physician who has given this matter much attention, says: "Never should any possible source of impurity be within fifty feet of a well or spring of drinking water, and in porous soil they will drain a much greater area. The careless throwing of house slops often contaminates a well, and as much care should be exercised in this respect in Winter as in Summer, or when the ground thaws in Spring there will be danger of the well receiving the drainage. People who know better are often careless about these things until sickness or death enters the home and brings a warning sadly too late. I feel very deeply on this subject, as I have just nursed my daughter through a typhoid fever, which can be traced to no other source than a well of water too near an old privy vault on a farm where she spent six weeks of the past Summer and was taken sick a few days after returning home. During the time she was there a long drouth occurred, the water was low in the well, which, of course, added to the danger.

Varney Returns.

After an absence of ten years, J. W. Varney, who taught Reno how to dance the "glide" and all the fancy quadrilles, has returned and proposes to give a series of parties in Reno, Carson and Virginia, giving the opening one here at Nevada Theater on Tuesday evening February 5th. He will introduce new round dances and quadrilles, with the society movements. Good music will be provided. Varney never furnished anything but good music.

The V. & T. Don't Like It.

The Carson Tribune says:

The proposed change of time on the C. P. R. R., to take effect Feb. 7, will require numerous changes on our local road, and will prove as great inconvenience to them and the Carson & Colorado as the general public. Under the new card, our Eastbound passenger train will leave Reno about 7 A. M., Carson at 8 25, arriving at Virginia at 9 50. Westbound will leave Virginia at 2 30 P. M. and Carson at 4 o'clock, reaching Reno at 5:15 P. M. Supt. Yerington has telegraphed Supt. Fillmore of the C. P. R. R., asking if possible to make time at Reno at 6 40, to conform with old card, and which gave general satisfaction to the traveling public.

Van Buren, who was worth $300 000, never drew his salary as President till the end of his term, when he took out the whole $100,000.

SUGAR BEETS.

Reno Should Try and Secure a Factory.

The profits of sugar beet growing are wonderful as appears by the annexed from the Santa Cruz Surf:

The general public who have watched the experiment of beet-growing in this county with interest and hopeful expectation, as well as the cranks and croakers who never can see any good in an innovation, are now anxious to ascertain what the next result of the undertaking is to be; in common phrase, how is it going to "pan out." To secure information a representative of this paper interviewed A. F. Richardson, one of the most exact and conservative farmers in the Pajaro Valley, during the recent visit to this city. Mr. Richardson planted eleven acres of beets, and had his whole crop harvested and delivered at the factory. Unlike many farmers. Mr. Richardson does not grow crops on the hap hazard plan, but kept an accurate financial account with his beet crop as faithfully as if administering an estate. The result is that he has facts, not opinions to offer. His success as a cultivator is demonstrated by the test that his beets have averaged 17 per cent. of sugar, the standard as fixed by Mr Spreckles being 14 per cent. For beets of this quality $4 per ton has been paid, with an increase of 50 cents per ton for each degree of saccharine matter above 14. On this basis Mr. Richardson's crop sold at from four dollars to $7 per ton, averaging $5 50 per ton, or $1 50 more than the basis rate. To secure the best results, he thinks the beets should be thinned out to a yield of about fifteen tons to the acre. After computing cost of culture, interest on value of land and all expenses of crop, he finds that his field has yielded this year a net profit of about $40 per acre, figures which compare favorably with wheat-growing or the production of other cereals. Many mistakes have been made by beet-growers this year, owing to inexperience and an attempt to follow German methods to some extent. Scarcity of labor and the lack of suitable tools and machinery has also been a drawback. The local mechanics and machinists of Watsonville, however, have taken in the situation with a keen eye to business, and already a large number of tools and machines adapted to beet culture have been invented, patented, and will be ready for sale the coming season. The experiments with "boy help" this year were so successful that it is likely that systematic arrangements will be made hereafter by which the labors of the juvenile population can be advantageously utilized.

Story of a Girl's Pluck.

The story of how Madame Camilla Urso, the celebrated violinist, opened the doors of that conservative institution, the Conservatory of Paris, is to her sex as well as all others very interesting. She was only eight years old at the time. Three years before she had conceived a great desire to learn to play the violin, and at first had played on a rude instrument made by an old music teacher in her native town of Nantes. She went to Paris and asked to be admitted to the Conservatory to study. The celebrated composer, Auber, was President of the institution, and his answer to the request was, "why, she is a girl." Her father was obliged to use every possible plan to break this unreasonable barrier between the talented girl and success, and finally got her the privilege of playing at the annual examination. There were seventy boys, the youngest of whom was eighteen years old, who competed with the little girl for one of the three vacant places to be had at the Conservatory. Camilla was determined to win and show those who thought a girl could not play what talent there really was in the sex. On the examination day she was admitted before the judges, who looked grim and displeased at her, but she did not mind. She was there for business and she chose and played the 4th concerto by Rode. Her rendition took the staid professors by storm. They did not believe it possible in one so young and especially in a girl. As a result she obtained the first prize, much to the disgust of her rivals, and since that day the great institution has been open to women.

Madame Urso will appear here shortly with a celebrated company, and will no doubt be welcomed by a crowded house.

DON'T

Let that cold of yours run on. You think it is a light thing. But it may run into catarrh. Or into pneumonia. Or consumption.

Catarrh is disgusting. Pneumonia is dangerous. Consumption is death itself.

The breathing apparatus must be kept clear of all obstructions and offensive matter. Otherwise there is trouble ahead.

All the diseases of these parts, head, nose, throat, bronchial tubes and lungs, can be delightfully and entirely cured by the use of Boschee's German Syrup. If you don't know this already, thousands and thousands of people can tell you. They have been cured by it, and "know how it is, themselves." Bottle only 75 cents. Ask any druggist.

Coal, Coal, Coal.

Pleasant Valley coal is the best and cheapest fuel in the market. 3 tons of P. V. coal equals five tons Rocky Mountain coal, by actual test. No slate or clinkers. One ton P. V. coal equals 3 cords common pine wood. Give it a trial and be convinced. Leave orders with or enquire of H. Sample, Depot Hotel or coal house, or at Nasbys, or of **Paul Aligier, the draymen.**

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world.
